

Questions for Panel Discussion (Webinar III)

- 1) How can cities and countries enhance their contribution towards achieving SDG 14 (life below water) through 3R and circular economy approach in plastics waste?
- 2) What should be the defining features of – (a) inter-agency cooperation (among line Ministries and between national and city government); (b) institutional mechanism; and (c) public-private-partnerships (PPP) in implementing 3R and CE policies and program towards prevention of land-based pollution, including waste plastics into the ocean?
- 3) What are the examples of sound policy, institutional, financing and technology options in 3R areas to address plastics waste issues in coastal and marine environment? What are the exemplary or model cases that have worked very well in preventing plastics wastes getting into coastal and marine environment?
- 4) To what extent countries and cities monitor plastic wastes in coastal and marine environment? What is the level awareness at public and municipality level? What is the level of cooperation between city and national government authorities in addressing this issue? What are the innovative actions taken at scientific and research level on the issue of plastic wastes?
- 5) What are the adverse impacts of plastic wastes in the livelihood security of Small Island Developing States (SIDS)? How can SIDS pursue 3R as an economic industry in protecting their tourism sector as well as the preserving the natural ecosystem? Is there any good cases of public-private-partnership and international cooperation models that have worked well for SIDS?
