

The Regional 3R Forum in Asia and the Pacific United Nations Centre for Regional Development (UNCRD)

3 R MYANMAR PROGRESS REPORT

Presented by Myanmar Team

Ms. Thway Thway Chit

Mr. Sein Htoon Linn

Ms. Khin Mar Yi

CONTEXT

- The status of each goal
- Challenges
- Conclusion

THE STATUS OF EACH GOAL

- Goal 1 is highly relevant, and the policy framework for solid waste has been undertaken under the NCDP.
- Under goal 2, Myanmar is undertaking waste to energy project
- Recycle rate is increasing especially in paper, plastic and metal. Others are low rate for recycling. There is no specific policy in there
- For goal 4 **Build sustainable cities /green cities** by encouraging “**zero waste**” is needed for **policy intervention**
- Goal 5, we have policy and program for private sector , e.g **Industrial policy No.(4) - Efficient Utilization of available natural resources and promotion of value-added products based on locally available natural resources**

THE STATUS OF EACH GOAL (CONTINUED)

- There are pilot projects under goal 6, e.g **IEE Project (2015-2019)** , **RECP Project (2016-2018)**
- Specific policy intervention are needed under goal 7 and 8.
- **Recently, Myanmar has signed in Basel Convention. In near future, systematic classification of hazardous wastes will be followed by Basel Convention. This will support to Goal 9.**
- Goal 10-12, and 14-16 we do not have specific policies , however, the programme has been implemented

THE STATUS OF EACH GOAL (CONTINUED)

- E-waste is mostly sent to second hand shop and we do not have specific data for each item
- To improve resource efficiency and resource productivity, Myanmar is working with ASEAN programmes
- For goal 18 to 19. we need to strengthen our mechanism
- The rest of the goals are under processing and need to develop specific policy and project

CHALLENGES

- Strengthening specific rule and regulation
- Budget constraints
- Awareness for public
- Cross sector policy is needed

CONCLUSION

- Realizing the importance of 3 R is progressing
- Slowly progress
- Technical and financial support are needed for improving in all areas

THANK YOU
