Discussion Points

- Any major issues including new emerging issues that needs to be highlighted in this section.
- Any potential source of data, information, reports which could be useful for developing this chapter.
- Any specific box, graph and chart that could be included in this chapter. (For example, any new policy initiative that is very effectively working in a country should be add in box)

3.2.2.1. Regional Overview on E-waste in Asia and the Pacific

- i. Definition of E-waste and its sources
- ii. Types of E-waste and its generation in the region
- iii. Transboundary movement of discarded E-waste in the region

3.2.2.2. National Regulations, Standards, and Guidelines on E-Waste Management

- i. Formal standards, certification system, and licensing procedures established and enforced (HNG13-1).
- ii. Guidelines on environmentally-sound management of e-waste at all stages, including occupational safety and health standards, appropriate workspaces, and infrastructure, and protective working equipment developed and incorporated into local regulatory frameworks (HNG13-5).

3.2.2.3. Management of E-Waste

- i. Technical support services made available to informal sector and SMEs involved in e-waste management, that have raised awareness of workers and employers on the hazards of e-waste management and recycling at all stages (HNG13-2).
- ii. Presence of, and access to, appropriate health-care services for informal sector workers (HNG13-2).

3.2.2.4. Opportunities for Circular Economy

- i. Number of state-of-the-art recycling facilities for E-waste (HNG13-4).
- ii. E-waste flows from their end of life to final disposals through the recycling facilities

3.2.2.5. Conclusion and The Way Forward
