National Transport Policy

**using the Management and Service
Evaluation for Transit Operators in Korea**

THE 10TH EST FORUM IN ASIA

14-16 MARCH, 2017

MINISTRY OF LAND, INFRASTRUCTURE AND TRANSPORT, REPUBLIC OF KOREA

Background

Outline of the Management and Service Evaluation

Comparison between Before and After Evaluation

Results of the Management and Service Evaluation in 2016

Best practices at Bus industry using a Big-Data and ICT

Direction of Transit Policy

C O N T E N T S

Background

- Consensus for Environmental Protection
- Improving demand for better quality of Life
- Decreasing of Road congestion, traffic accident

Shift to the Transit-Friendly Policy

Improvement of the public transport service quality
Promotion of comfortable and luxurious transit surroundings

Outline of the Management and Service Evaluation

Purpose

- **Voluntarily competition among transit operators**
- **Financial Support for best industry**
- **Induction of Benchmark through best practice sharing**

Legal Bases

- **Act on the support and promotion of Utilization of Mass Transit system 18th**

Cycle

- **2years (even year) – first evaluation : 2006 year**

Scope

- **Railway, Express bus, Intercity bus, Local bus, Rural bus, Passenger terminal**

Contents

- **Business management, Financial soundness, Safety, Operation Management, Customer satisfaction**

Outline of the Management and Service Evaluation

Score

Management (20%) + Service (80%) + best Practice (100%)

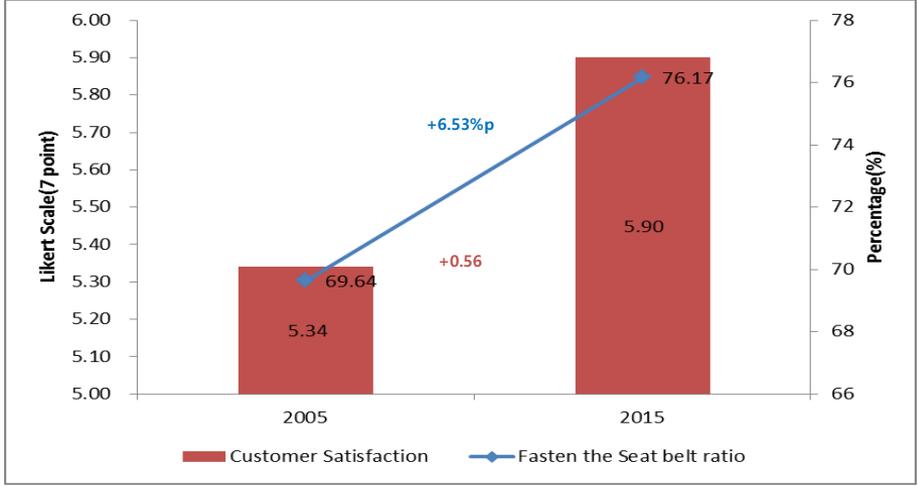

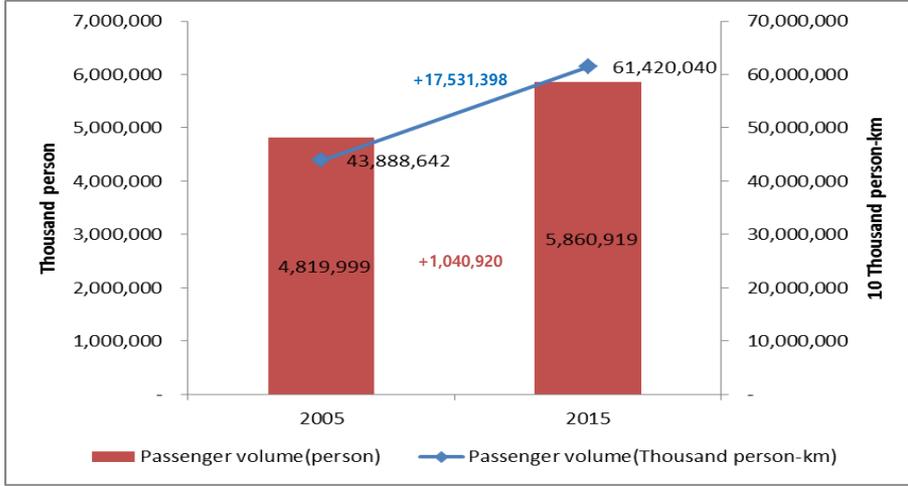

Class	Field	Item	Score
Management (20%)	Management (70)	Back pay	20
		Industrial accident insurance rate	5
		Driver's turnover rate	10
		Driver's wage rate	10
		Driver's welfare support	10
		Environmental promotion efforts	5
		Management improvement efforts	10
	Financial soundness (30)	Debt rate	10
		Flow rate	10
		Operating profit rate	10
Total sum		100	

Class	Field	Item	Score
Service (80%)	Operation (25)	Dispatch plan compliance rate	8
		Fasten the seat belt rate	5
		Administrative disposition amount	3
		Number of inspection check	2
		Non-compliant vehicles rate	2
		Survey on vehicle operation	5
	Safety (45)	Vehicle standard compliance rate	5
		DTG submission & usage	10
		Traffic safety rating index	10
		Driver training	8
		Driver qualification compliance rate	10
		Emergency Preparedness efforts	2
	Satisfaction (30)	Customer satisfaction	20
		Automobile modernization rate	5
		Service improvement efforts	5
Total sum		100	

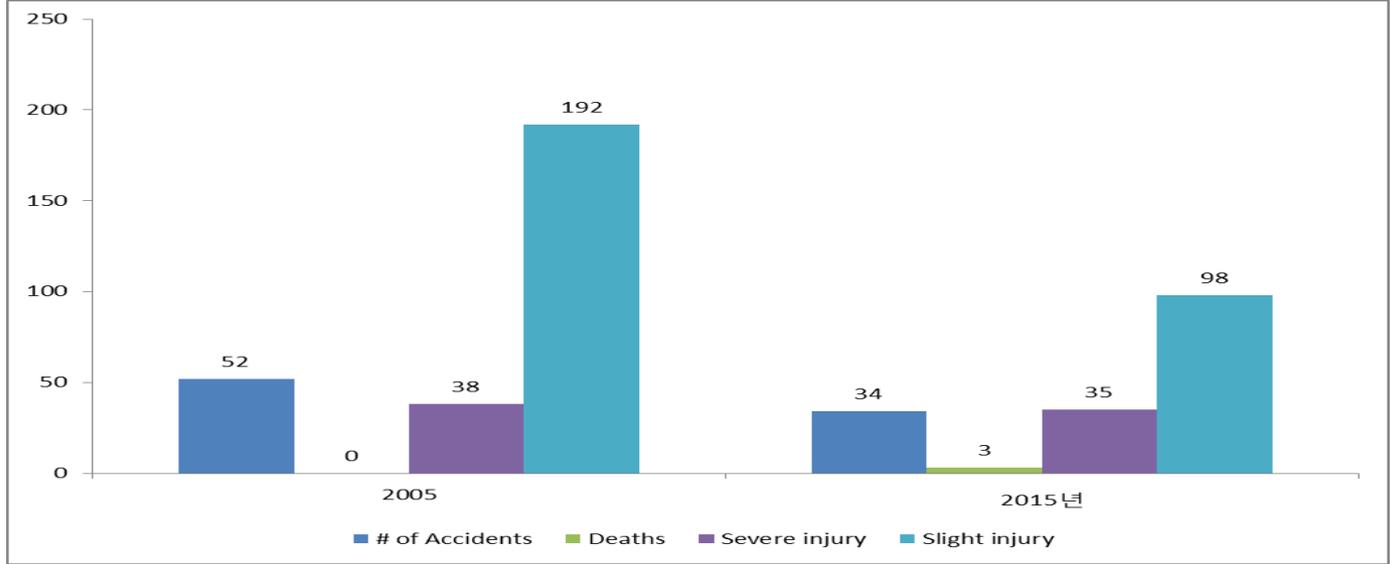

Class	Field	Item	Score
Best practice (100%)		Best practice	3

Comparison to Before and After the Evaluation

Passenger Volume

Accidents

Result of the Management and Service Evaluation in 2016

IPA Analysis

- (Concentrate) Headway, Amenities in car, Arrival time, Safety in car, Temperature, Interior/Exterior
- (Low priority) Fare adequacy, Ensuring safe distance

구 분	항 목	결 과
Operation Service	1. Headway	II
	2. Operating time	I
	3. Punctuality	IV
Utilization Service	4. Response attitude	IV
	5. In car Amenities	II
	6. Reasonable Fare	III
Information Service	7. Operating information	I
	8. Arrival time	II
	9. Safety in car	II
Comfortability Service	10. Cleanness	I
	11. Temperature	II
	12. Interior / Exterior	II
Safety Service	13. Fasten the seat belt	IV
	14. Ensuring safe distance	III
	15. Safe driving	I

Result of the Management and Service Evaluation in 2016

Customer Satisfaction

- **Structural Equation : Causal-effect relationship between transit service and user satisfaction**
- **The comfortable service** has the biggest effect on user satisfaction

Priority	Latent Variables	Weight	Priority (Sub)	Exo-Variables	Weight
1	Comfortability Service	0.918	1-1	Cleanness	0.809
			1-2	Comfort in car	0.809
			1-3	Air-conditioning and heating	0.768
2	Utilization Service	0.914	4-1	Response attitude	0.798
			4-1	Amenity	0.789
			4-3	Fare	0.700
3	Information Service	0.906	3-1	Operation	0.818
			3-2	Arrival time	0.809
			3-3	Safety in car	0.771
4	Safety Service	0.905	4-1	Mobility impaired	0.826
			4-1	Fasten the seat belt	0.757
			4-3	Safe driving	0.569
5	Operation Service	0.807	5-1	Operating time	0.787
			5-2	Headway	0.774
			5-3	Punctuality	0.713

Best practice at Bus industry using a Big-Data and ICT

Safety management with the control system

- Installing the DTG, GPS, LTE equipment in vehicle
- Collect the vehicle operation and real-time location information
- Driver's recess time, Outrage driving monitoring, Potential accident area management

The screenshot displays a comprehensive bus fleet management system interface. It features several key components:

- Navigation and Search:** At the top, there are navigation menus for '금호고속 통합관리 시스템' and search filters for '지역' (Area) and '구분' (Category).
- Vehicle Status Table:** A large table lists vehicle details including '구분' (Category), '승무사명' (Driver Name), '차량번호' (Vehicle No.), '운행상태' (Running Status), '위치' (Location), and '속도' (Speed). The table is filtered for '2019-09-12'.
- Map View:** A central map shows the real-time location of vehicles, with a red dot indicating a specific vehicle's position in a city area.
- Information Management:** A sidebar on the right contains '정보관리' (Information Management) options like '운행기록' (Running Record), '차량정보' (Vehicle Info), and '운행시간' (Running Time).
- Accident Management:** A table on the right side, titled '사고관리' (Accident Management), lists accident details such as '구분' (Category), '발생구간' (Occurrence Area), '발생시간' (Occurrence Time), '발생장소' (Occurrence Location), and '처리상태' (Processing Status).

Best practice at Express bus industry

Daily dispatch report system using a mobile app.

- Offering the dispatch, driving habit information into the mobile app.
- Reducing the workload, Providing real-time schedule, and Preventing accidents

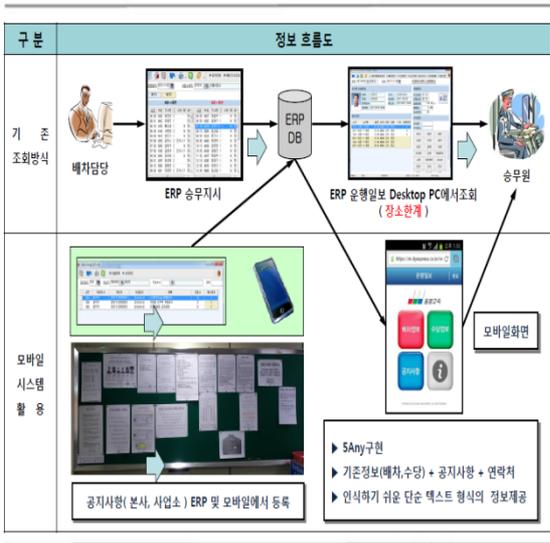

Daily dispatch inquire by call

Before (Year-2013)	Intro. (Year-2014)	After (Year-2015)	Rate(%)
190	85	3	-98.40%

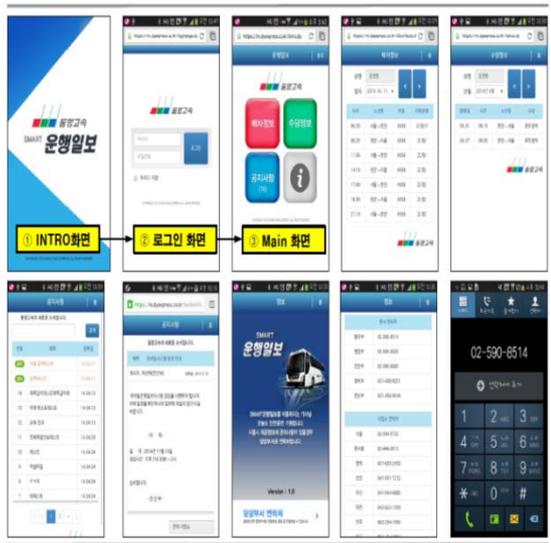

System performance

Division	05~12. 2014	05~12. 2015
# of Connection (times)	1,215,558	2,393,680
Ratio	-	196.90%

라. 시스템 FLOW

마. 모바일 운행일보시스템 (SMART 운행일보) 화면구성

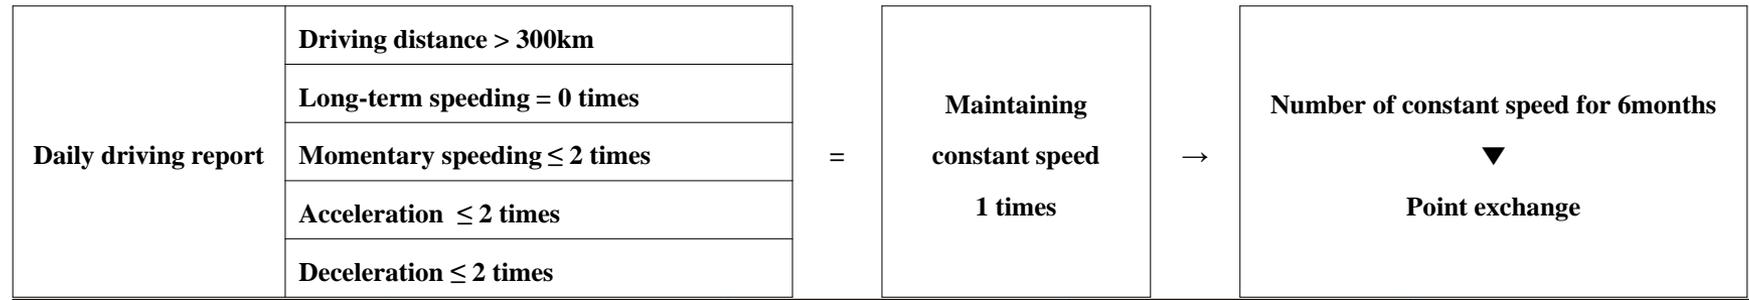

Best practice at Express bus industry

Providing an Incentive through the DTG data analysis

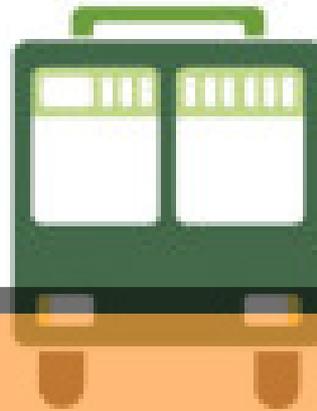

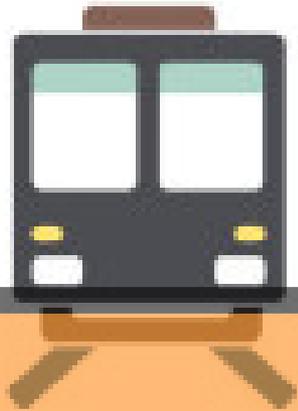

- **Selecting the best drivers analyzing a DTG* data (2 times/year)**
 - (except) at-fault drivers, traffic offenders, drunken drivers
 - (demerit mark) Fine/penalty, civil requests
- **Decreasing the high-risk driving attitude & Traffic rule violating behaviors**

DTG* : Digital Tacho graph

Division	Year-2012	Year-2013	Year-2014	Year-2015
Long-term speeding	778	315	220	-
Momentary speeding	223,405	199,684	197,196	182,715
Acceleration	61,031	27,134	25,583	27,403
Deceleration	28,847	1,354	380	250
Total	314,061	228,487	223,379	210,368
Difference	-	-85,574	-5,108	-13,011

- Spreading the **best practices** conducted by operators
- Strengthen the **surveillance** to check as follows;
 - fastening the seat belt, signal violation, using a mobile phone while driving
 - and the breakdown of the vehicle facilities(such as light, frontage windowpane etc.).
- **Safety training** for accumulated penalty points drivers
- Guarantee a **driver's recess time** to provide a legal system
- Develop new evaluation methods for **Chartered bus mode**

Thanks for your attention
