

# Outline

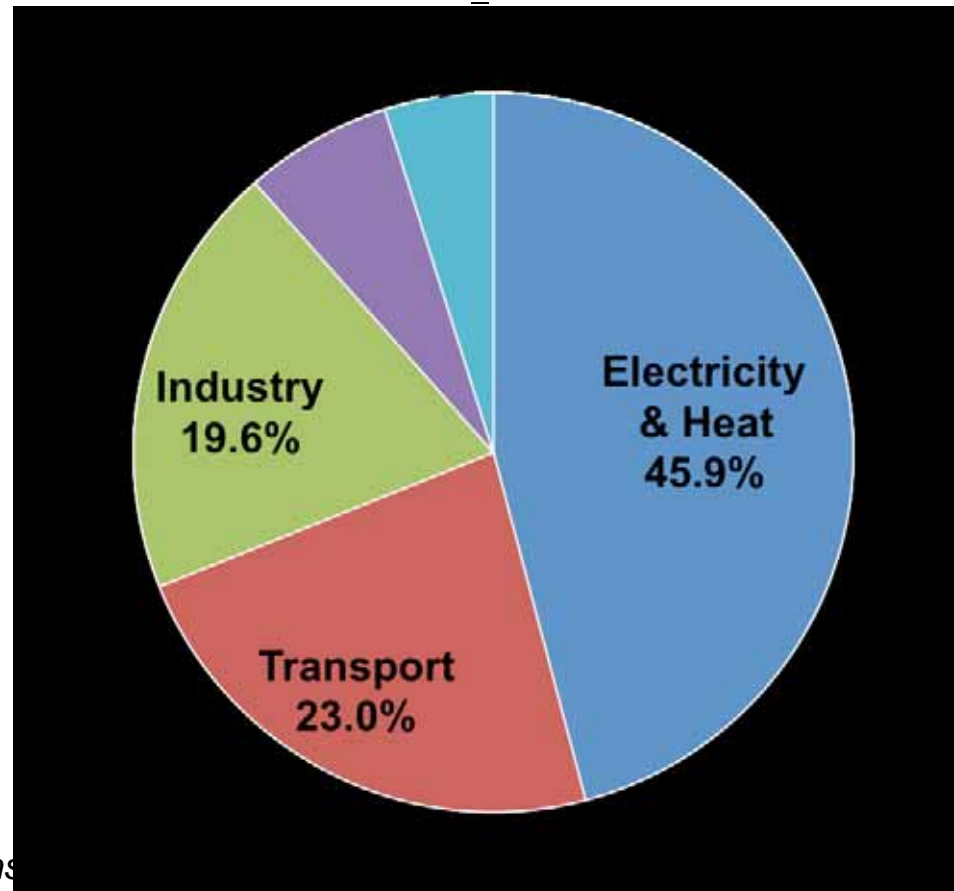

---

- 1. Ministerial Conference on Global Environment and Energy in Transport (MEET)**
- 2. Key Points of the Ministerial Declaration**
- 3. Assistance to Efforts of Developing Countries**
- 4. Final Remarks**

# Background

- **Transport: major source of CO<sub>2</sub> emissions**  
→ **23%** in 2006

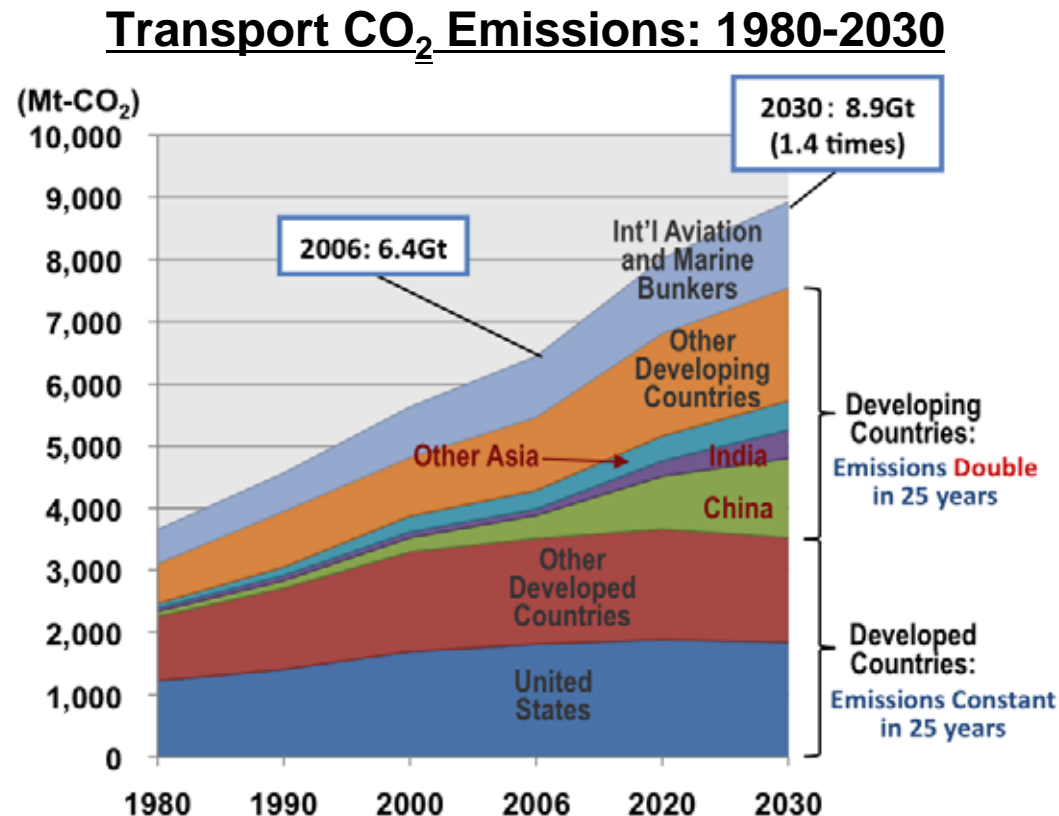

World Sectoral CO<sub>2</sub> Emissions in 2006

Source: IEA, CO<sub>2</sub> Emissions

# Background

- Growing transport emissions: 1.4 times by 2030
  - developing countries: **double**
  - Asian countries: **triple**

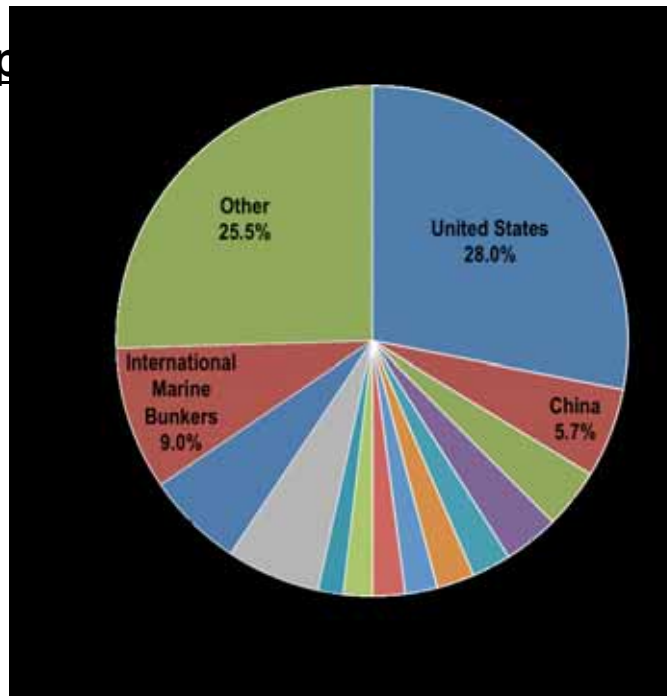

Source: IEA, *World Energy Outlook 2008*.

# MEET Conference

- **Gathered transport ministers & representatives from major countries & int'l organizations**  
(See Appendix)
- **Covering 70% of world's transport CO<sub>2</sub> emissions**  
(incl. int'l aviation and shipping)

Transport CO<sub>2</sub> Emissions by Country in 2006

Source: IEA, CO<sub>2</sub> Emissions from Fuel Combustion 2008 Edition.

# MEET Conference

---

- **Ministerial Declaration:**
  - **Delivering strong political messages from the transport sector to combat climate change & air pollution**  
(See attached document)

# Key Points of Ministerial Declaration

---

1. **Shared long-term global vision**  
→ Realizing **low-carbon & low-pollution transport systems**
2. **Proposed a menu of effective policy measures for domestic transport**
3. **Facilitate discussions in ICAO & IMO to address emissions from int'l aviation & shipping**
4. **Continuous dialogue & enhanced int'l collaboration**

# Assistance to Efforts of Developing Countries

---

- **Ministerial Declaration**
  - **Facilitating efforts of developing countries through:**
    - **sharing of best practices**
    - **enhancement of capacity building etc.**

# Continuing Dialogue

---

- **2<sup>nd</sup> Ministerial Conference  
(Italy, December 2009)**
- **Senior Officials Meeting  
(Japan, June 2009)**

# Assistance to Efforts of Developing Countries

- **Japan's Multifaceted Assistance to:**
  - **Formulation of action plans**  
(e.g. ASEAN-Japan Environmental Action Plan)
  - **Design & implementation of measures for: automobiles, low-carbon logistics systems, public transport etc.**
  - **Development of statistical data**

# Final Remarks

---

- **Toward Low-Carbon & Low-Pollution Transport Systems in Asian Region**
  - **Complementation & Collaboration b/w MEET & Asian EST Initiative** would be essential & promising
  - **Japan's MLIT is also ready to bilaterally provide Asian countries with the multifaceted assistance (page 9)**

---

**Thank you!**

# Appendix: MEET Overview

---

- **Date:** January 14-16, 2009
- **Venue:** Tokyo, Japan
- **Participants:** 21 countries, 9 int'l organizations
  - G8, Australia, India, Korea & ASEAN10
  - ASEAN Secretariat, EC, UNFCCC Secretariat, World Bank, ICAO, IMO, UNECE/WP.29, IEA & ITF
