Waste production in Australia

SELECTED SOCIO-ECONOMIC AND ENVIRONMENTAL MEASURES, Australia, 1996-97 to 2013-14

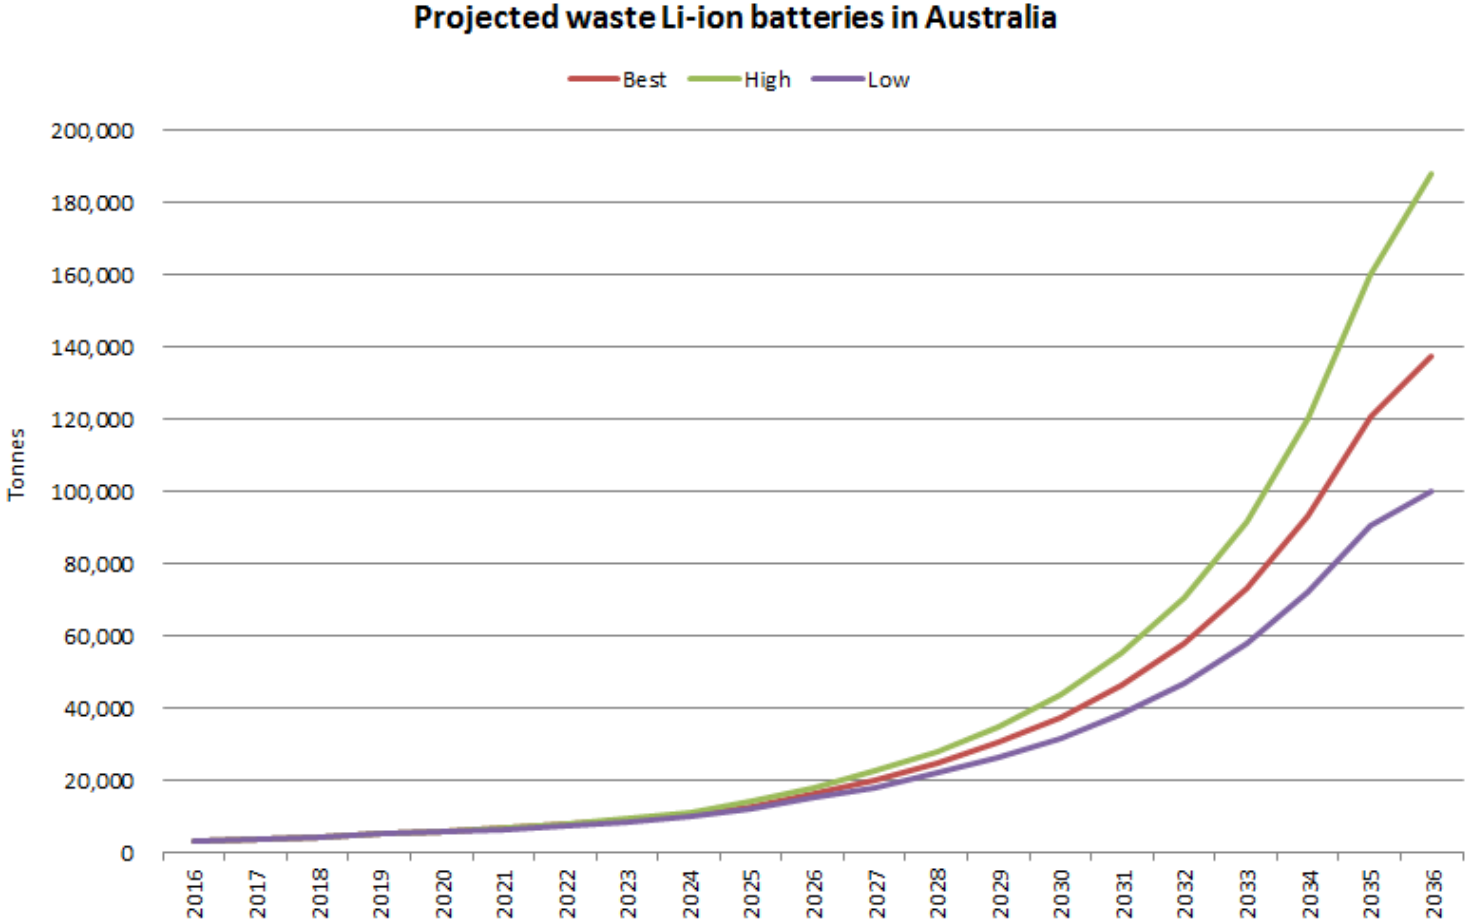

National product stewardship framework

National Television and Computer Recycling Scheme

	Percentage recycling target	Recycling target (tonnes)	Recycling achieved (tonnes)
2012-13	30%	41,327	40,813
2013-14	33%	43,430	52,736
2014-15	35%	42,653	44,731
2015-16	50%	52,600	50,000 (TBC)
2016-17	58%	TBC	TBC

Handheld waste Li-ion batteries projections

Some challenges

- Agreeing priorities and desired outcomes
 - System design
 - a. Data, measurement, objectives
 - b. Participants, responsibility, funding
 - c. Monitoring and reporting
 - Strategic context (first of all)
-
